

# STRATOBEL ALARM

Laminated safety glass  
with alarm functionality

Stratobel Alarm (laminated safety glass) was specifically developed for those applications where alarm performance is required to ensure the safety and security of people, goods and equipment. The alarm circuit is integrated in the PVB interlayer and triggers an electrical signal when the circuit is broken (the glazing is integrated in an electrical circuit and connected to an alarm management system).

## When ultimate safety and security performance is required

What's so special about it?

What does this mean for you?

- |                                  |   |
|----------------------------------|---|
| Safety glass                     | – Laminated safety glass for the protection of people and goods   |
| Alarm function                   | – Triggers an electrical signal when the glass is broken  |
| High optical quality             | – Excellent transparency  |
| Fit for insulating glazing       | – Can be assembled as a glass component in insulating glazing (either exterior or interior glass sheet) |
| Specialised support and know-how | – Support provided from the design phase to integration in the customer's solution                      |

### Technical specifications

Sizes	Maximum: 2000 mm x 4000 mm (larger sizes possible on request and after technical feasibility study) Minimum: 300 mm x 300 mm
EN 15152	Yes

### Processing options

Stratobel Alarm is a finished product delivered in cut sizes or assembled into insulating glazing.

### Availability

Stratobel Alarm is available in a wide range of thicknesses from 32.2 to 1919.2 mm (asymmetric and special compositions upon request) and can be assembled with Planibel Clearlite or Planibel Clearvision.

Upon request, it is possible to laminate a sheet of Planibel Coloured or coloured PVB interlayers. Stratobel Alarm is also available with toughened safety glass used as the glass component. Please contact us for the technical feasibility of specific thicknesses and dimensions.

### Applications

- Jewellery shops
- Prisons and detention centres
- Museum displays and glass display cases

#### AGC GLASS EUROPE, A LEADER IN FLAT GLASS

AGC Glass Europe is the European flat glass branch of AGC, the world's leading glassmaker. Its baseline, Glass Unlimited, reflects its core assets: innovative strength in advanced glass technologies, a global sales network and an industrial presence stretching from Spain to Russia. AGC Glass Europe has representatives worldwide. See [www.yourglass.com](http://www.yourglass.com) for further details.
